

A photograph of two toucans perched on a thick, textured tree branch. The toucan on the left is facing right, showing its large, dark beak with a yellow tip and a bright yellow throat. The toucan on the right is facing left, also showing its large, dark beak with a yellow tip and a bright yellow throat. Both birds have dark plumage on their heads and backs, with a white patch on the underside of the bird on the right. The background is a clear, light blue sky.
